“Kingsgrove High School has lived up to my expectations and most importantly it has supported me in many ways. It is not just a school where I go to study, but it has also become my second home. The school provides me with a safe environment and many opportunities to improve all aspects of my overseas life, such as language and integration into the Australian society. I also find that the school’s senior tutorial class, organised by our International Students Coordinator, is very effective and helpful. It has greatly supported my studies.”
