“This is my first year at Model Farms High School. At first, I was so nervous, because of the new environment, my language and my new identity. But later I found everything was so different from what I first thought. My teachers and schoolmates are kind and friendly, they welcomed me and encouraged me to study the subjects. Also, I can learn ESL at school. ESL helps me to understand English and to learn more skills. I study Society and Culture, Drama, Community and Family Studies and Business at school. These subjects are great and they help me to know the culture of Australia. Model Farms High School helps me to study, to have more friends and to finish my education in high school. Thanks Model Farms High School and thanks to all the teachers, and schoolmates in the school.”
