NSW GOVERNMENT SCHOOLS

YOUR FUTURE BEGINS TODAY

INTERNATIONAL STUDENT PROGRAMS
New South Wales (NSW) government schools offer an exciting opportunity to live and learn in a safe and friendly multicultural community.

The largest education network in Australia, our school system is recognised for excellent quality, high academic outcomes, a broad range of academic and creative subjects and the innovative use of classroom digital technology.

Academic pathways all the way through to Year 12 can provide an ideal preparation for local and international universities.

Our popular short-term programs are designed to provide a taste of life in Australia while offering a range of educational possibilities.

There is always plenty to do and see in NSW, including beaches, museums and of course the world’s most beautiful harbour.

YOUR FUTURE BEGINS TODAY

INTERNATIONAL STUDENT PROGRAM

FROM PRIMARY SCHOOL THROUGH TO SENIOR SECONDARY SCHOOL, GOVERNMENT SCHOOLS IN SYDNEY AND ACROSS NSW OFFER ACADEMIC EXCELLENCE IN A SAFE, FRIENDLY AND WELCOMING ENVIRONMENT.

21ST CENTURY LEARNING
To prepare young people to live, work and be successful in the 21st century, they will need the ability to think both creatively and critically, problem-solve and work collaboratively. NSW government schools are leading-edge educators in areas such as innovation, self-confidence, independent learning, research skills, leadership skills and collaboration.

ACADEMIC PATHWAYS
International students who graduate from a NSW government school are well prepared for further studies at university in Australia or overseas.

EXCEPTIONAL TEACHING
Our teachers are highly qualified, university-trained and accredited through the Board of Studies, Teaching and Educational Standards.

They provide a caring and friendly environment so students can achieve their best in academic subjects, sports, music, creative arts or in the many other activities offered.

SCHOOL SUPPORT
Students will be supported by a range of teachers and support staff during their time at a NSW government school, including an international student coordinator and a year adviser.

Every school offers an orientation program. A buddy system pairs international and local students to help your child make new friends.

WORLD CLASS FACILITIES
Our schools have modern science and language laboratories, libraries, auditoriums, gyms and recreation facilities.

Information technology is integrated through the school curriculum with the use of laptops, interactive whiteboards, computers and video conferencing.

INTENSIVE ENGLISH SUPPORT
Intensive English programs are an ideal way for students 12 years old or above to improve their English.
